SELECT PEARS.

The number of varieties of this fruit, both of American and Foreign origin, has increased so rapidly within the last few years, that it has become necessary to limit the kinds cultivated. The following list comprises such as have been well tested and proved, any of which the amateur may plant without risk of disappointment.

Those designated by an * are of American origin.

Price—Two and three years, dwarfs, 40 cents each, $25 per 100.
Extra sized trees, extra prices.
Standard trees, two and three years, 50 cents each, $30 per 100.
**CLASS FIRST—SUMMER PEARS.**

Murray, medium, melting and good.
Pitmaiston Orange, large, orange with a bright red cheek.
Stanwick, yellow, with a dark red cheek.
Violette Hative, medium, rich and excellent.
Victoria, large and delicious.

SELECT PEACHES.

Peaches succeed to perfection in this region. Here “Yellows” and other diseases from which they suffer in Northern States are unknown. The pits from which they are raised, and the stock from which they are budded are alike of pristine vigor; a point planters should bear in mind.

Price—25 cents each, or $10 per 100.

CLASS FIRST—FREESTONES WITH WHITE FLESH.

Alexander's Early, medium size, richly colored. Three weeks earlier than Hale's Early, the earliest of all peaches.
Amsden June, good size. Three weeks earlier than Hale's Early, and ripe with Alexander's Early. Fine.
Crockett's Late White, large, greenish white, red in the sun. End of Sept.
Druid Hill, large, greenish white and red. End of Sept.
Early Beatrice, medium, red cheek, carries well, ripens two weeks before Hale's Early.
Early Louise, larger than Early Beatrice, three days later, a fine early peach.

Early Newington Free, medium to large, white with a red cheek.

Early Red, Troth's, medium size, bright red cheek. End July.

Early Rivers, medium, pale straw, ripens two days after Early Louise, a fine peach.

Early Tillotson, medium to large, white nearly covered with red. Early Aug.

Early York, medium to large, white, covered in the sun with purplish red. Beginning Aug.

Fox's Seedling, round, white with a red cheek. Middle of Sept.

George the Fourth, large, white with a red cheek. Middle Aug.

Grosse Mignonnette, large, greenish yellow mottled with red, with purplish red cheek. Aug.

Hale's Early, medium size, skin greenish white mottled with red.

Heath Free, largest size, greenish white with purplish red cheek. Sept.

Keyport Late White, very large, light color, ripens with Smock.

Large Early York, large, white with a red cheek, an excellent variety. Middle of Aug.

La Grange, large, greenish white, reddened in the sun. Beg. of Oct.

Leathersbury's Late.

Lord Palmerston, a magnificent, large, very late peach has been grown 12½ inches in circumference. It is one of Mrs. Rivers' Seedlings. Fruit very large, of a rather pale color, having a little red on the sunny sides, flesh firm and richly flavored. 50 cents each.

Moore's Favorite, resembles Old Mixion, very fine.

Morris White, medium size, creamy white, tinged with red in the sun. Beg. of Sept.

Mountain Rose, larger and superior to Troth's, and ripens with that variety.

Old Mixion Freestone, large, greenish white with a red cheek. End of Aug.

Rareripe, Late Red, large, yellow, with a deep red cheek. Beg. of Sept.

Shipley's Late Red, very large and late, high color, fine.

Steadley, a very late and large peach, color greenish white, ten days later than Heath.

Stump the World, very large, creamy white with a bright red cheek. Middle of Sept.

Ward's Late Free, large, white with a beautiful crimson cheek. Beg. of Oct.

Williams' Large Early.

CLASS SECOND—FREESTONES WITH YELLOW FLESH.

Beer's Smock, large, yellow, very fine; seedling from Smock's. 1st of Oct.

Bilyeu's Late Oct., a very large and late peach, a superb market fruit.

Crawford's Early Melocoton, very large, oblong, yellow with a fine red cheek. Mid. of Aug.

Crawford's Late Melocoton, very large, skin yellow with a fine dark red cheek. Mid. of Sept.

Foster, resembles Crawford's Early, larger and a little earlier.

Hance's Golden Rareripe.

Harker's Seedling, fruit large, roundish, mostly covered with red.

Levy's Late Oct., a very large and late peach, originated in this city, the finest late yellow peach.

Mary's Choice, a magnificent large peach, larger than Crawford's Late. Sept.

Picquet's Late, very large, yellow with a red cheek.

Red Cheek Melocoton, large, yellow with a red cheek. Sept.

Reeves' Favorite, large oval, yellow with a fine red cheek.

Salway, large late yellow, with a brownish red cheek.

Smock's Free, large, orange yellow, mottled with red. End of Sept.

Susquehanna, very large, rich yellow with a beautiful red cheek. Beg. of Sept.

Yellow Rareripe, large, orange yellow with rich red cheek. Beg. of Aug.

CLASS THIRD—CLINGSTONES.

Privet Californian, 2 feet, ........................................... $5 per 1000

AFew SELECT EVERGREEN TREES.

Abies Canadensis, hemlock spruce; there is no evergreen which surpasses in grace and beauty our native hemlock. 25c to $1.00
Abies Excelsa, Norway spruce; the most popular hardy evergreen, and deservedly so, it is of rapid growth, very dense, graceful and symmetrical, 25c to $1.00
Arbor-Vitæ (Thuja), American Arborvitæ; a well-known evergreen foliage, bright green in summer; a valuable hedge plant, 25 to 50c.

Chinese, a very pretty evergreen with erect branches and deep green foliage, 25c. to $1.00

Aurea, Golden Arborvitæ; a beautiful dwarf compact evergreen, of special habit and golden-tinted foliage, 25c. to $1.00

Compacta, a dwarf, compact variety of spherical habit, and light green foliage, 25c. to $1.00

Siberian, a very fine variety, of dense compact habit, regular outline, foliage deep green.

Cedrus (cypress) Deodara, Indian Cedar; a pyramidal tree, with dense, slender, drooping branches; this is undoubtedly one of the most elegant and graceful trees grown; it is a native of the mountains of Northern India; quite hardy, 50c. to $1.00

Libani, Cedar of Lebanon; a majestic branching tree, with dark green leaves, 50c. to $1.00

Cupressus (Cypress) Lawsoniana, a highly ornamental tree, with elegant drooping branches, and very slender, flexible, feathery branchlets, 25c. to $1.00

Nutkaensis (Thujopsis borealis) Nutka Sound Cypress, a very bushy compact tree, with drooping branchlets; foliage deep green, 25c. to $1.00

Euonymus Japonica, a handsome evergreen shrub, with dark green leaves, 25c. to $1.00

radicans variegata, a pretty, variegated dwarf shrub. There are many beautiful variegated varieties of this handsome evergreen, 25 to 50c.

Juniperus, Irish, next to the Irish Yew; this is the finest evergreen shrub grown for cemeteries; of exceedingly erect, compact habit; it is of quick growth and very hardy, 25c. to $1.00

Libocedrus decurrens; this is a very beautiful and distinct evergreen tree; of compact, erect habit; leaves rich glossy green; of rapid growth and quite hardy, 50c. to $1.00

Magnolia Grandiflora, a noble evergreen, with large leaves of a rich glossy green above and ferruginous beneath; flowers pure white, 6 to 8 inches in diameter; very fragrant, 25c. to $2.00

Mahonia aquifolia, a beautiful shrub, 3 to 4 feet high; leaves pinnate; smooth glossy green; flowers yellow, 25 to 50c.

Japonica, a beautiful evergreen, with large shining foliage, 50c. to $1.00

Rhododendron, many beautiful varieties of this fine flowering shrub. The same with flower buds, $1.00, $2.00.

Picea (Silver Fir) Balsamea, Balsam Fir, a popular native tree; very pretty in a young state, 50c. to $1.00

Nordmaniana, a magnificent tree, of symmetrical habit; foliage of a dark glossy green, 50c. to $1.00

Pectinata, a beautiful tree, of rapid growth; foliage light green; many fine specimens of this tree are to be seen in the parks of this city, 50c. to $1.00

Pinus (Pine) Austriaca, Austrian Pine, a very hardy tree, with erect dark green foliage; quite hardy in the most exposed situations, 50c. to $1.00

Strobus, White Pine, a beautiful native tree; leaves long, drooping, of a glaucus green, 50c. to $1.00

Sylvestris, Scotch Pine; this well-known tree is a native of Northern Europe; foliage dense, of a glaucus hue, 50c. to $1.00

Retinospora (Japan Cypress) Leptoclada, a very handsome species; of upright conical growth, dense, compact habit, 25 to 75c.
Retinospora Obtusa, a very beautiful evergreen, of dense habit and graceful pendant branches, 25 to 75c
Pisiferi, a small tree, with very slender, feathery branches, 25 to 75c
Plumosa Aurea, golden-tipped; this lovely variety of plumosa has the deeply tipped with golden yellow, 25 to 75c
Squarrosa, a very beautiful compact grower, with glaucus foliage; very fine, 25 to 75c

Taxus (Yew) Irish; there is no shrub more erect or dense in habit than the Irish Yew; the foliage is of the darkest possible hue; for cemeteries it has no equal and is perfectly hardy; it is of very slow growth; plants of good size are consequently expensive, $1.00 to $3.00
